CANALVIEW PROJECT

CanalView is a mixed use project located in Dilmunia Health Island. SSH Middle East & Kooheji Contractors were appointed as the Design and Supervision Consultant and Main Contractor respectively.

The piling works were completed by Bahrain Foundation Construction Company under the supervision of SSH. After the appointment of Main Contractor in May 2018, around 35,000 m² of excavated fill was removed and 300 linear meters of retention sheet piling installed to enable basement construction to commence.

SUMMARY OF CANALVIEW'S CONSTRUCTION PROGRESS

Progress as per plan
Progress actual at site

9.7%

The project is progressing in a good pace to meet the target milestones.

MASTER DEVELOPER UPDATES

3

Ithmaar Development Company (IDC), the Development Manager for Dilmunia at Bahrain announced the award of the early works package for the Dilmunia Grand Canal & Marina. The Grand Canal will cut through the entire stretch of Dilmunia in a semi-circular route, making it Bahrain's largest man-made water body and providing breathtaking vistas to surrounding developments within Dilmunia, and one of Bahrain's longest continuous promenades to residents and visitors of the island.

Preparation of the main canal

Canal Bed Soil Improvement in Process
